By the Interweb editorial team · Updated 15 October 2026 · Data from the providers' public pages, consulted in October 2026.

SITE AO works mainly on website and online-store creation, and also sells hosting, domains and servers. Its client area is at clientes.site.pt, and the site mentions a presence in Portugal and Cape Verde.

Both are local providers, both sell hosting and domains. The short answer: **on the basics they are similar**, and the choice comes down to three or four details. Let us go through them one by one.

Hosting and panel

1

Interweb - cPanel with CloudLinux, free SSL and Imunify360, with clear per-account limits.

2

SITE AO - cPanel, NVMe disks, antivirus, antispam and firewalls; WHM on VPS and reseller plans.

Domains

1

Interweb - .ao registered with the national registry, with a **DNS manager** and **real-time nameserver changes** - the only provider in Angola offering it.

2

SITE AO - .ao, .co.ao, .it.ao and international extensions (.com, .net, .org, .pt and others), "from Kz 15,000". The specific .ao price is not stated.

How you pay

1

Interweb - Kwanzas, with a local invoice.

2

SITE AO - Prices in kwanzas. Entry plan "Base": Kz 5,000/month, with 10 GB NVMe, unlimited traffic, a security certificate and cPanel. The home page shows "Hosting from Kz 15,000", a different figure; confirm the current price with them.

Backups

1

Interweb - Every night before dawn, kept for a year, restored through JetBackup.

2

SITE AO - "Backups 24x7" on hosting and daily backups on VPS. Retention and self-service restore not stated.

Customer support

1

Interweb - WhatsApp, panel ticket and e-mail 24 hours a day, plus **phone calls from 08:00 to 16:00** - all in Portuguese, with a written record of everything asked and done kept in the panel.

2

SITE AO - Advertises 24/7 support: ticket in the client area (reply within 24h), form and WhatsApp (Portuguese number, +351).

For companies: VPS and reseller

1

Interweb - VPS, Cloud, dedicated and reseller, **unmanaged** by default.

2

SITE AO - Managed VPS from Kz 40,000/month, dedicated servers and reseller from Kz 88,000/month. Advertises free migration of files, databases, e-mail and domain.

Main differences

	Interweb	SITE AO
Panel	cPanel (Linux) and Plesk (Windows), with CloudLinux and Imunify360	cPanel, NVMe
National domain	.ao with the national registry	.ao, .co.ao, .it.ao; domains from Kz 15,000
Currency	Kwanzas, with a local invoice	Kwanzas; Base plan Kz 5,000/month
Backups	Nightly, kept 1 year, self-service restore	"Backups 24x7"; retention not stated
Support	WhatsApp, ticket and e-mail 24h; phone 08:00-16:00	24/7 ticket, form and WhatsApp

Where SITE AO is strong

They build the website, not just host it: website and online-store creation (from Kz 500,000 and Kz 850,000), with "18+ years" and "8000+ sites" stated on their home page.

Why we recommend Interweb

If you want **everything in one place and in local currency**: national domain, hosting, e-mail and invoice on one account. We are among the few who state in writing **how long backups are kept** - one year - and let you **restore them yourself** from the panel, with no ticket and no waiting. Add **CloudLinux**, which stops a neighbour's site ruining your performance, **Imunify360** against malicious code, **free SSL that renews itself**, **free migration of your current site**, over **100 domain extensions** and one-click WordPress.

Entry price: the **Hospedagem Pro** plan starts at **Kz 9.000/month** (108.000 a year), with SSL, backups and cPanel included. *Price current in August 2026 - check the store for today's figure.*

In short. For a business in Angola - with a national domain, an invoice in local currency and someone who answers any hour by WhatsApp, ticket or e-mail - **Interweb** is the choice we recommend. And if you ever change your mind, you take everything with you, with no fee.

The test worth more than this article. Before deciding, send a technical question to both support teams and compare how long they take and how good the answer is. That applies to them and to us - it is how you judge a provider.
