By the Interweb editorial team · Updated 15 October 2026 · Data from the providers' public pages, consulted in October 2026.

DOMINIOS.AO presents itself as the official store of DNS.ao, the Angolan authority for .AO address registration. It is not a hosting company: since 28 July 2023, new .AO registrations are made only through authorised resellers, and the site continues to handle renewals.

So this is not a like-for-like comparison: it shows where each one fits for anyone who wants a .ao domain and, possibly, a website. Let us go through the points one by one.

Hosting and panel

1

Interweb - **cPanel** with CloudLinux, free SSL and Imunify360, with clear per-account limits.

2

DOMINIOS.AO - Not applicable: DOMINIOS.AO does not sell hosting.

Domains

1

Interweb - **.ao** registered with the national registry, with a **DNS manager** and **real-time nameserver changes** - the only provider in Angola offering it.

2

DOMINIOS.AO - Official store of the .AO registry (DNS.ao). Since 28/07/2023, new registrations are made only through authorised resellers; existing holders can renew here. The .ao price is not public (the catalogue requires login).

How you pay

1

Interweb - Kwanzas, with a local invoice.

2

DOMINIOS.AO - Currency and prices not stated publicly.

Backups

1

Interweb - Every night before dawn, kept for a year, restored through JetBackup.

2

DOMINIOS.AO - Not applicable (no hosting).

Customer support

1

Interweb - WhatsApp, panel ticket and e-mail 24 hours a day, plus **phone calls from 08:00 to 16:00** - all in Portuguese, with a written record of everything asked and done kept in the panel.

2

DOMINIOS.AO - E-mail (info@dominios.ao), contact form and FAQ. Hours not stated.

For companies: VPS and reseller

1

Interweb - VPS, Cloud, dedicated and reseller, **unmanaged** by default.

2

DOMINIOS.AO - Not applicable. Publishes the list of authorised .AO resellers.

Main differences

	Interweb	DOMINIOS.AO
Panel	cPanel (Linux) and Plesk (Windows), with CloudLinux and Imunify360	Not applicable (no hosting)
National domain	.ao with the national registry	Official .AO store; new registrations through authorised resellers
Currency	Kwanzas, with a local invoice	Not stated publicly
Backups	Nightly, kept 1 year, self-service restore	Not applicable
Support	WhatsApp, ticket and e-mail 24h; phone 08:00-16:00	E-mail, form and FAQ

Where DOMINIOS.AO is strong

It is the official store of the .AO registry: to renew a .ao domain held directly there, it is the official channel.

Why we recommend Interweb

If you want **everything in one place and in local currency**: national domain, hosting, e-mail and invoice on one account. We are among the few who state in writing **how long backups are kept** - one year - and let you **restore them yourself** from the panel, with no ticket and no waiting. Add **CloudLinux**, which stops a neighbour's site ruining your performance, **Imunify360** against malicious code, **free SSL that renews itself**, **free migration of your current site**, over **100 domain extensions** and one-click WordPress.

Entry price: the **Hospedagem Pro** plan starts at **Kz 9.000/month** (108.000 a year), with SSL, backups and cPanel included. *Price current in August 2026 - check the store for today's figure.*

In short. For a business in Angola - with a national domain, an invoice in local currency and someone who answers any hour by WhatsApp, ticket or e-mail - **Interweb** is the choice we recommend. And if you ever change your mind, you take everything with you, with no fee.

The test worth more than this article. Before deciding, send a technical question to both support teams and compare how long they take and how good the answer is. That applies to them and to us - it is how you judge a provider.
