Interweb or AngoWeb: comparison and which to choose in Angola

 Comparisons and alternatives Created on **August 16, 2026** Updated on **October 15, 2026** 5 min read

By the Interweb editorial team · Updated 15 October 2026 · Data from the providers' public pages, consulted in October 2026.

AngoWeb says it was founded in 2011 and is based in Luanda (Estrada Lar do Patriota), with hosting, professional e-mail and .AO domains.

Both are local providers, both sell hosting and domains. The short answer: **on the basics they are similar**, and the choice comes down to three or four details. Let us go through them one by one.

Hosting and panel

- 1 **Interweb - cPanel** with CloudLinux, free SSL and Imunify360, with clear per-account limits.
- 2 **AngoWeb - cPanel**, with LiteSpeed Elite, SSD storage, Imunify360 and DDoS protection; SSH, Git and WP-CLI available.

Domains

- 1 **Interweb - .ao** registered with the national registry, with a **DNS manager** and **real-time nameserver changes** - the only provider in Angola offering it.
- 2 **AngoWeb - .ao, .co.ao, .it.ao, .edu.ao, .org.ao** and international extensions. .ao: Kz 24,900.00 to register and Kz 34,900.00 to renew (per year), free transfer. .co.ao: Kz 34,900.00 to register and Kz 44,900.00 to renew. The Personal plan includes a free .AO domain.

How you pay

- 1 **Interweb - Kwanzas**, with a local invoice.

- 2 **AngoWeb** - Prices in kwanzas. Entry plan "Pessoal": Kz 4,200.00/month on monthly billing, Kz 3,675.33/month on the 1-year cycle and Kz 1,575.14/month on the 3-year cycle, with 1 site, 10 GB SSD and free SSL.

Backups

- 1 **Interweb** - Every night before dawn, kept for a year, restored through JetBackup.
- 2 **AngoWeb** - Daily, kept for 21 days (21 restore points). The customer makes and restores backups in the client area and in cPanel (JetBackup).

Customer support

- 1 **Interweb** - WhatsApp, panel ticket and e-mail 24 hours a day, plus phone calls from 08:00 to 16:00 - all in Portuguese, with a written record of everything asked and done kept in the panel.
- 2 **AngoWeb** - The home page lists phone, tickets, chat, WhatsApp and in-person service, with 24h virtual support and human support Monday to Friday, 09:00-17:00. The contact page says support is provided only by ticket, 09:00-17:00 (UTC), closed at weekends.

For companies: VPS and reseller

- 1 **Interweb** - VPS, Cloud, dedicated and reseller, **unmanaged** by default.
- 2 **AngoWeb** - Cloud server/VPS from Kz 9,477.00/month and cPanel reseller from Kz 7,423.50/month. Advertises free migration (sites, databases, e-mail and DNS), a refund within 30 days on shared hosting and a 7-day free trial.

☆ Where AngoWeb is strong

Over a decade in the Angolan market (since 2011), a local presence in Luanda, free daily backups kept for 21 days and a 7-day free trial.

☆ Why we recommend Interweb

If you want **everything in one place and in local currency**: national domain, hosting, e-mail and invoice on one account. We are among the few who state in writing **how long backups are kept** - one year - and let you **restore them yourself** from the panel, with no ticket and no waiting. Add **CloudLinux**, which stops a neighbour's site ruining your performance, **Imunify360** against malicious code, **free SSL that renews itself**, **free migration of your current site**, over **100 domain extensions** and one-click WordPress.

Entry price: the **Hospedagem Pro** plan starts at **Kz 9.000/month** (108.000 a year), with SSL, backups and cPanel included. *Price current in August 2026 - check the store for today's figure.*

In short.

For a business in Angola - with a national domain, an invoice in local currency and someone who answers any hour by WhatsApp, ticket or e-mail - **Interweb** is the choice we recommend. And if you ever change your mind, you take everything with you, with no fee.

The test worth more than this article.

Before deciding, send a technical question to both support teams and compare how long they take and how good the answer is. That applies to them and to us - it is how you judge a provider.
